October & November 2011

New Perspectives on Type 2 Diabetes and Metabolic Syndrome

with Berris Burgoyne, ND

There is no doubt that Type 2 Diabetes and Metabolic Syndrome are two of the biggest health issues facing western society. In this two part teleseminar Berris will discuss in detail the pathogenesis, complications, treatment, management and prevention of Metabolic Syndrome, Type 2 Diabetes and Latent Autoimmune Diabetes in Adults (LADA), (also known as Type 1.5 Diabetes). LADA is a distinct entity and should be considered when treating patients diagnosed with Type 2 Diabetes.

You will come away from this two part teleseminar with a much greater understanding of the many factors involved in these complex conditions. It is not only about weight loss! This new understanding and broader knowledge will enable you to get to the core of your patients' problems, which in turn allows you to offer them more effective treatment and management protocols.

Register now as Berris Burgoyne's seminars are extremely popular and always sell out.

1 Part 1: New Perspectives on Type 2 Diabetes and Metabolic Syndrome

with Berris Burgoyne, ND

7:00pm Thursday 27 October 2011

2 Part 2: New Perspectives on Type 2 Diabetes and Metabolic Syndrome

with Berris Burgoyne, ND

7:00pm Tuesday 15 November 2011

MediHerb's InContact Seminar is a telephone-based learning opportunity. It is incredibly convenient, just book using the form overleaf. You will receive the seminar notes and instructions in advance by email. MediHerb will call you at your designated number just before the start time and the presentation takes place for 45 minutes, followed by 15 minutes of questions and discussion. The seminar is recorded and delegates are able to download the seminar recording from the internet for a limited time.

These seminars sell out quickly so book early to ensure your spot!
